COMMENTS FROM THE TOWN MANAGER'S OFFICE

During the month of July \$33.84 was spent on town welfare, which represented four cases. One case was supplemental assistance for medical needs. The second case was a food order which was repaid by the recipient. The third case was extra assistance to an OAA case. The fourth case is residing in Portland and was aided by that city, with Bethel being the town of settlement and therefore responsible for the bill. At the end of the month there were two active cases. During July \$366.30 was expended for other town's poor. Bethel will be reimbursed by the town of settlement for those expenditures. There were four active cases during the month, two of which were new cases. At the end of the month there are three active cases. During the month \$585.07 was expended on State welfare this sum to be paid to the town by the State. During the month there were seven active cases. At the end of the month there are three active cases.

It is a policy that any male person that requires assistance and is able to work must work out any assistance furnished or pay the town for the amount expended.

When the telephone company converted to the dial system cards were mailed by the town to all individuals giving the fire alarm signals and the red network number. If any persons wish to have extra cards they may have the same by calling at the town office.

Sincerely,
Harold L. Bean

NOTICE

The Newry School Committee is accepting bids for elementary school conveyance to and from the schools on Bear River for the school year of 1957-58.

Specifications:
1. The conveyance vehicle must have a "school bus" capacity of ten or more and meet all other state school bus requirements.

2. A competent, acceptable, adult male driver must be furnished.

3. Junior Primary pupils shall be conveyed home at noon.

4. Branch School teacher shall be conveyed from Newry Corner in the morning and back in the afternoon.

5. Water for each school shall be carried in cans supplied. Water will be secured at Albert Martin's or other acceptable source passing state test.

The daily mileage for the route will vary between 45-50 miles, depending upon where the conveyer lives and the capacity of the vehicle. Last year the mileage was about 70 miles per day.

The Newry School Committee reserves the right to accept or reject any or all bids.

Submit bids to Donald Christie, Sup't. of Schools, on or before 6 P. M., Tuesday, August 27, 1957.

NOTICE TO SCHOOL SAVINGS DEPOSITORS

In line with our new policy of not transferring the School Savings accounts for the Primary through the Seventh Grade, we are asking that you send or bring in the gray account books. We will then bring your book up-to-date and send you a new book, if necessary, along with your cancelled gray book. These books should be kept in a safe place until school begins next Fall.

The Eighth Grade School Savings accounts have been transferred to our regular savings accounts. Your Bethel Savings Bank book should be brought in that we may record this deposit.

SURVEY COMM. MEETS WITH NTL GROUP

Recently an interesting meeting was held at Gould Academy for the purpose of discussing some ideas that might aid Bethel industrially and economically. The group consisted of several key personnel of the NTL including Dr Bradford, Dr Lipplitt, Dr Preiss, Dr Pitkin, and several members of a training group, who at the invitation of some Bethel people have been occupied with some of Bethel's economic problems. Bethel people, completing this group were members of the original Industrial Survey Committee as started by the Chamber of Commerce.

The request for aid led to some interesting ideas and observations from NTL. Especially interesting was the genuine concern shown for our town, by people that only a short time ago, seemed complete strangers. As a whole, all of our observations seemed to agree that Bethel could definitely be more progressive. The problem was more of how to approach our aims, without shaking us all up, in the transition. The problem seems even greater, when you consider that the local group concerned with the welfare of our town all are extremely busy people and are trying to accomplish a task that most towns and cities hire professional economic consultants to attain.

One thing definitely decided was to get the survey in to Augusta though we are fully aware that much of the data is obsolete—since the recent lumber market upheaval. It was agreed that Bethel would go on record as interested in industry, dispelling the myth that we're a closed corporation, unfriendly to progress. The process of waiting for industrial bids after such a petition is made is slow—but safe. The Maine Industrial Development Commission has bent over backwards to accept only reputable business bids so that Maine's belated industrial growth will be secure, naturally such caution takes time. The discussion on — What does Bethel have to make us desirable to an industrialist didn't result in overwhelming odds in our favor. We commented on — good land sites (are they available?), railroad facilities (reasonable rates?), electric power (reasonable rates?), tax rates (no comment), schools (excellent but subject to overcrowding if our efforts started an influx of new citizens). It all seemed to sum up into a lot of unanswered questions. A strong bid was made for a air landing strip as an aid to stimulating tourist trade and making our town more quickly accessible for year-round use of the NTL. If a future air service could be established Bethel certainly would have made one good firm step forward and a lot of people would benefit. If any of the people who worked so hard on this project years ago are still interested Ad Saunders was appointed by the committee to check on all possibilities for air service—and probably would appreciate any help or information available.

It was generally agreed that Bethel's best claim to appeal was a quality of LIVE-ABILITY that is imperative to the newcomer, by reason of climate and natural surroundings.

As far as community spirit is concerned we have it as much as most communities our size. Most of our citizens lead busy lives consequently our problem in finding time to perform civic duties, New England reserve is sometimes considered hostility but any newcomer will eventually realize that SLOW and STEADY produces longer lasting friendships and Bethel's quality of sincerity cannot be questioned.

To sum it all up—we are proud of our town—and our people and we feel that we have as much to offer any small industry as it could possibly give us back.

TODAY'S Meditation

Chelupper Room
O THE UPPER ROOM, NASHVILLE, TENNESSEE
THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Thursday, August 15
Read John 12:35-36.
Walk while ye have the light, lest
darkness come upon you: for he
that walketh in darkness knoweth
not whither he goeth. (John 12:35.)

DAVID, our little three-year-old
son, suffered for nine months
months with leukemia. When my
husband and I were told that our
only child would soon die, our first
thought was: "No! this cannot be
true." But as the months went by,
we knew that it was true. We pray-
ed earnestly for strength to carry
us through that trying time.

Then one day in May, just as
the morning light was breaking,
he left us to go to his heavenly
Father. Our son had learned to
love Him so much during his short
life.

After my husband and I had
prayed by our son's bed, we went
out on our back porch. As we
watched the sun come up, I thought
how wonderful of God to give us
the morning so that we can leave
behind the darkness of the night.
As surely as night falls, God gives
us a new day to walk in the light.

Prayer
Our heavenly Father, we
thank Thee for the gift of eter-
nal life. It gives us hope that
one day we may enter into that
land of eternal light, where
there shall be no night. In the
name of Christ, the Light of the
world. Amen.

Thought For the Day
"The morning light is breaking,
The darkness disappears."

Lewis Mumford, an expert on
city planning, has this to say:
"Either the motor car will drive
us all out of our cities, or the
cities will have to drive out the
motor car—not by absolute pro-
hibition, or course, but by restric-
tions of size and access, favoring
small cars...and penalizing such
monstrosities as those fantastic and
insolent chariots with which Ameri-
can motor car manufacturers now
burden our streets and parking
lots."
